

Safe Lifting: Why & How (video)

By

Resource Type: Risk eNews

Topic: Facility, Program and Transportation Safety, HR Risk and Employment Practices

Improper lifting practices result in countless injuries to American workers each year. Watch the video below to learn a few simple steps for safe lifting!

The Center team creates custom risk resources for our clients, like this safe lifting video we created for our client and Corporate Sustainer, Arthur J. Gallagher & Co.

Build your team's risk assessment and risk management skills by providing risk education and supporting resources. The Center team can create risk-themed resources including videos, infographics, white papers, and podcasts, or a web portal to house a suite of custom risk resources.

Call us at 703.777.3504 to learn how we can help promote risk-awareness throughout your nonprofit team!
