| Cyber Insurance            | similarly broad and ill-defined. |
How Cyber Insurance is Offered

Packaged with Property of Liability Coverage

Streamlined Process

Lower Premiums

Lower Limits

Less Flexibility

Stand-Alone Transactional Market

Application and Individual Underwriting

Higher Premiums

Higher Available Limits

Greater Ability to Customize
The Cyber Insurance Marketplace

US Cyber market as a whole has almost doubled in size since carriers began submitting premium data to NAIC in 2015

- Substantial growth in packaged products in 2017 means the overall market split is close to 50/50 between Stand Alone and Packaged Cyber
- Of the $550M increase in 2017 over 2016, only $25.2M relates to new carriers filing premium with NAIC, $525M represents growth in carriers that filed in 2016
Cyber Insurance Coverages Today

Data Breach

- Triggered by a breach of personal information
- Pays for:
  - Forensic IT Review
  - Legal Review
  - Notification Expenses
  - Services
  - Regulatory Fines and Penalties
  - PCI Fines and Penalties
  - Public Relations/Crisis Management
Triggered by an attack on the insured’s computer system

Pays for:
- Restoration of Data from Electronic Sources
- Re-creation of Data from Non-Electronic Sources
- Restoration of Systems and Software
- Business Income and Extra Expense Loss
- Public Relations/Crisis Management
Cyber Extortion

- Triggered by an extortion threat
- Pays for:
  - Consultation, Investigation and Negotiation Expenses
  - Payments Made in Response to Threat
Triggered by deceptive attacks generally employed to divert payment to fraudulent destinations

- Reimburses for lost funds
- Also known as: Financial Fraud, Misdirected Payment Fraud
- Often paired with Computer Fraud coverage (which covers similar losses which result from hacking)
Cyber Insurance Coverages Today
Third Party Coverages

- Data Breach Liability
- Network Security Liability
- Electronic Media Liability
Lawsuits and other formal disputes arising out of a breach of personal information

- Actions brought by:
  - Affected Individuals
  - Regulators
  - Banks and other parties
Suits alleging that the insured’s failure to secure its own system allowed harm to befall third parties
- Insured’s system used to transmit malware
- Insured’s system used in a denial of service attack
Electronic Media Liability

- Suits arising from the insured’s publication of information on a website
- Copyright or trademark Infringement
- Defamation
- Invasion of Privacy
Emerging Coverages

- System Failure
- Reputational Harm
- Privacy Incident
- Liability
Triggered by a disruption of a computer system’s functionality that lasts beyond a set waiting period (typically 10 hours)

Disruption cannot be the result of an intentional attack or a physical peril

Pays for lost business income and extra expense
Reputational Harm

- Triggered by (depending on how the coverage is written) either a data breach with notification or an adverse media event
- Pays for a shortfall in business income over a prescribed period compared to similar periods in the past
Privacy Incident Liability

- Triggered by a suit alleging that the insured has collected or failed to delete, amend or correct personal information in an unauthorized or unlawful manner or that an insured has violated its own published privacy policy
- Pays for the costs of defense, settlement and judgement
- No actual breach of personal information (or even an allegation of such a breach) is required for coverage to be triggered.
Final questions?
Thank you for your attention.
