and Peter Andrew

Webinar Description

A growing number of nonprofit organizations purchase commercial insurance coverage as a form of risk financing. If you’ve ever wondered whether your nonprofit is getting a bang for the bucks you spend on insurance, you won’t want to miss this program. Throughout the webinar we will explore the roles of the various players in the industry, including agents, brokers, carriers, re-insurers, pools and more. We will also discuss the most common types of coverage purchased by nonprofits. The webinar will end with practical tips for getting the most from your financial investment in commercial insurance.
