Practical Tips to Inspire Board Risk Leadership

Melanie Lockwood Herman, Executive Director
Nonprofit Risk Management Center

703.777.3504 | Melanie@nonprofitrisk.org

The Nonprofit Risk Management Center inspires effective risk management and Risk Champions.

We help nonprofit teams take bold, mission-advancing risks.
Workshop Overview

Key Concepts:
- What is Governance?
- 4 Key Board Roles
- What is Risk Oversight?

Risk Leadership Strategies

4 Tips and Takeaways

Resources!

What is Governance?

Means in which the leading authority, often the board of directors... guides and monitors the values and goals of its organization through policy and procedures.

Philanthropic Foundations of Canada
4 Key Board Roles

- **Fiduciary** – “stand in”
- **Stewardship** – protecting assets
- **Foresight** – discerning and acting on possible futures
- **Oversight** – overseeing processes that support mission-fulfilment

What is Risk Oversight?

Responsibility for *overseeing* an organization’s approach to identifying & responding to critical risks, against a backdrop of ever-present uncertainty.

*World-Class Risk Management for Nonprofits*, Norman Marks and Melanie Lockwood Herman
Risk Leadership Strategies

1. Know your audience!

- WHO: Audit Committee, ERM Committee, full Board
- WHAT: top-of-mind concerns
- HOW much: information appetite?
2. Define the Board’s Risk Leadership Duties

- Contributing to shared understanding of the organization’s risk landscape
- Identifying *strategic* and *external* risks
- Leveraging opportunities to take risk
- Setting risk appetite

Risk Appetite is:

“...the amount and type of risk that [the organization] regards as appropriate for it to accept in order to execute its strategy.”

SOURCE: RIMS
Without a shared understanding of risk appetite, each team member must infer it.

High appetite for risk

Low appetite for risk

Risk Appetite Questions

• Do we really understand how much overall risk we are taking?
• Are we capable of taking on this overall level of risk?
• Have we built in an appropriate margin of safety?
• What mechanisms are in place to signal approaching limits?

SOURCE: page 268, Surviving and Thriving in Uncertainty by Weick & Sutcliffe
3. Deliver Risk Reports

What is a Risk Report?

It depends! Possibilities include:
- Information about risk trends or your risk landscape
- Data on losses and claims
- Lessons from evolving risk management capabilities
- A status report on progress
- A component of Risk Oversight
<table>
<thead>
<tr>
<th>Examples of Risk Reporting Wants</th>
</tr>
</thead>
<tbody>
<tr>
<td>▪ Top 3 risks, those that could affect the survival of the organization</td>
</tr>
<tr>
<td>▪ A quarterly report showing priority risk areas, mitigation strategies, risk owners, plus a narrative describing emerging risks</td>
</tr>
<tr>
<td>▪ Commentary on the gaps between exposures and capabilities</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Risk Reporting Wants</th>
</tr>
</thead>
<tbody>
<tr>
<td>▪ Risk information in several formats: gaps, top three risks, anecdotal commentary, and a long list of categorized risks</td>
</tr>
<tr>
<td>▪ Commentary on how we expect our risks and risk landscape to change over time</td>
</tr>
<tr>
<td>▪ Information that will help us focus on specific risk issues or themes at each board meeting.</td>
</tr>
</tbody>
</table>
Risk Reporting Musts

- Inspire confidence
- Spark engagement
- Sync with governing model
- Support decision-making

Hypothetical Risk Dashboard

<table>
<thead>
<tr>
<th>Rank and Risk Category</th>
<th>Risk</th>
<th>Key Risk Indicators (what we’re monitoring to understand this risk)</th>
<th>Risk Strategies (specific steps and strategies to mitigate the risk)</th>
</tr>
</thead>
</table>
| #1 Existential (Enterprise Level) Risk | Significant cuts in funding (or lack of growth needed to address the ABC shortage) | - Growing ABC shortage  
- Increase in federal funding  
- Emergence of new institutional funders  
- Success of incentives and programs | - Collaboration with PDQ to advocate policy changes to address the ABC shortage |
EXAMPLE: Risk Priorities vs. Readiness

Hypothetical Risk Dashboard

<table>
<thead>
<tr>
<th>Strategic Objective</th>
<th>Risk Event</th>
<th>Risk Indicators</th>
<th>Current Risk Rating</th>
<th>Ongoing Strategies</th>
</tr>
</thead>
</table>
| Expand operations to additional countries | Foreign agent registration denied | - Process requires more than time allotted  
- Similar NGO was denied registration | STABLE – projected time to implement expansion plan is 6 months | - Cultivate additional, country-based advocates  
- Explore back-up plan and alternatives to registration |
| Inability to hire experienced country directors for new offices | Less than 10 qualified people apply for country-director roles | HIGH – Initial applicant pool is much smaller than our goal | | - Identify interim leaders of new in-country offices who can be deployed for up to 3 months |
| Funder for expansion withdraws due to political or other pressure | Funder backs away from 10-year commitment, preferring shorter time-frame  
- Funder imposes impractical “strings” | LOW – Funder indicates preference for 10-year commitment to region | | - Develop additional communication strategies to keep funder aware & excited about progress  
- Identify other possible funders |

</table>

- What other risks—related to this strategic objective—are concerning?
- What other trends or developments should we be monitoring? (indicators)
- Do the current strategies inspire confidence?

Great Risk Oversight Questions

- What is surprising about the content of the dashboard?
- From your perspective, is our “top risks” profile accurate this year?
- What emerging/changing risks should we monitor more closely in the future?
- How might our risk profile and ongoing risk management activities inform strategy-level decisions?
- What more would you want to see in the Risk Dashboard to inform those decisions?
Homework

- How does your leadership team share risk information with the board?
- Is the board eager or reluctant to discuss top risks?
- Is the board’s risk leadership/oversight role clearly defined? If not, what steps would bring definition to that role?
1. Be future focused

“The Courage to Lead is a willingness to take risks for the good of an unknown future. And the risks are real. For it is much easier to tinker with the month, the quarter or the year, but to make decisions with an eye to the distant future is much more difficult.” — The Infinite Game

2. Choose resilience over ‘stability’

“The infinite-minded player... expects surprises, even revels in them, and is prepared to be transformed by them.”

“A company built for resilience is a company that is structured to last forever. This is different from a company built to stability. Stability, by its very definition, is about remaining the same.”
3. Focus on presenting a clear, uncluttered report

LESS is MORE; sharing a long list of risks won't inspire confidence!

A short list is ok!

"The art of being wise is the art of knowing what to overlook."

- Williams James
4. Don’t save conversations about strategy and risk until the end of a long meeting!

Managing Resumption Risks

Many states have been progressing through reopening phases, and countless nonprofits are now transitioning employees back to the office. Resumption plans are simplified by federal, state, and local laws, mandates, and guidelines. Understanding compliance obligations is key to a successful resumption.

To manage compliance and legal risks related to resuming, consider these 3 core values and 4 action items.
